

Genomics Projects Workshop 2008

Monday May 26, 2008
Big auditorium (2144)
Høyteknologisenteret
University of Bergen

The FUGE platforms for bioinformatics (CBU), microarrays (NMC), proteomics (PROBE), and imaging (MIC) invite you to a one-day meeting with a possibility to present and discuss functional genomics projects. In addition to the platforms, Prof. Frank Holstege (Utrecht and Bergen) and Patrick Kemmeren (Utrecht) will present and take part in discussions. We open for investigators to register for closed meetings with the platforms and Holstege on May 27 and 28.

Program

- 10:00 Welcome – purpose of the workshop – round the table presentation
- 10:15 Functional genomics projects in Utrecht (Frank Holstege)
- 11:00 Brief overview FUGE platforms and infrastructure (platforms)
- 12:00 Project presentations (meeting participants)
15-30 minutes including discussion – time allocated depends on number of participants)
- 12:30 Lunch
- 13:15 Patrick Kemmeren (UMC Utrecht): An Accurate Physical Interactome Map of *Saccharomyces cerevisiae*
- 14:00 Project presentations continue
- 16:00 End of day
- 20:00 Social get-together

Registration can be done at www.bioinfo.no/work08 - including submission of short project description. Registration deadline: May 19th
